## **DETAILED ACTION**

### ***Allowable Subject Matter***

Claims 1-18 are allowed. The following is an examiner's statement of reasons for allowance:

The closest prior art appears to be *Tetrahedron* (1991), 47(26), p. 4739-52 (CAPLUS abstract) which teaches compounds structurally related to those of the instant invention. The prior art compounds contain a carbonyl moiety, however, not encompassed by instant formula (I). The reference neither teaches nor suggests the instant compounds. Nor would it have been obvious to one of ordinary skill in the art at the time of the invention to modify the compounds of the prior art in order to arrive at those of the instant invention. There is no motivation to do so.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

### ***Conclusion***

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Brian J. Davis whose telephone number is 571-272-0638. The examiner can normally be reached on 8:30-5:00.
